

# Black Night

## Arch of Hell

Walk around in the midnight  
And heard the voices  
Beyond the downstreet  
Lamps are shining like a candle  
In my hearth

Started war in my mind  
Enemy  
Am I let's stop this fight  
C'mon c'mon die

Bad ages are coming  
My faith is falling  
Down!

Malice... In my blind eyes  
You can not see in his night  
'Cuz!!

One night,  
I wanna know  
How it became the black night  
Never mind, never know  
But must be left behind

One night,  
One day  
My life is in the other side  
Never mind, never know  
I have to stay, stay survive

Why cannot see disagreed?

One night, I wanna know  
How it became the black night  
Never mind, never know  
But must be leave behind...

And rise confused aims  
That never should have been born

Why cannot you see  
My world in agony  
My mind has been crucified  
Can't you see  
Light kills agony  
Light kills agony  
Light kills agony

Night's shadows are breathing  
And I despite me!

One night, I wanna know  
How it became the black night  
Never mind, never know  
But must be left behind
