

Sodomator Of The Doomed Venus

Archgoat

Conjuring forth, the lover of the light
Menstruating virgin, arched on all fours
Limbs spread wide, nipples whipped and racked
Fornicative whispers, evocation of penetration
The tormentor of the endless nights
Penetration of the Venus gates
Madonna raped on the black mass lust
Sodomy of the holy prostitute
Fallen from the grace, the holy contracts
Blasting forth new blood of Christ
Cracked gates casting the stillborn to die
Ancient semen, hail the grail of flies
