

Let Go

Archie Star

Step outside my feet meet the pavement
And im alright
Ladadada

I drive up and i see her outside
Honey please come back to me just one time

So what
Are you doing here

You know exactly
What im doing here

Just let this go
i can't let gooo

And she's got me screaming
At night when im dreaming

Hes got me thinking
Im not good for anything

Look at this mess we've made
With only ourselves to blame

I know all about your midnight mistakes
But i play dumb
Because the truth i can't face

And i know about
All your mistakes
Like all of the guys
You were with on spring break

Come on just stop
Im so sick of fighting

And i look fine now
But inside im just dying

Just let this go
i can't let go

And she's got me screaming
At night when im dreaming

And he's got me thinking
Im not good for anything
