

# We Are The Weekend

Archie Star

I'm breaking out again  
You got your lips on him with your back bent  
You look like Michigan  
But the city lights won't let you forget this

Not gonna wonder where when she'll call me  
Just keep my eyes closed, steady heartbeat

Hey babe, sing along  
Every word to every song that's about you  
I'll get you back to my bed  
Cuz I could, I could, I could, I keep your back bent

I'm breaking out again  
You got your lips on him with your back bent  
You look like Michigan  
But the city lights won't let you forget this

She wants to grow up to be an actress  
She'll make her way there, mattress to mattress

Hey babe, sing along  
To every word to every song that's about you  
I'll get you back to my bed  
Cuz I could, I could, I could,

I'm breaking out again  
You got your lips on him with your back bent  
You look like Michigan  
But the city lights won't let you forget this

I haven't been stoned in a while  
So let's get high now and start a fire  
Out from the west coast, here to Chicago  
I'll show you why I could never let go  
Now burn the city down and walk on water  
I had my arms spread but never caught her

Got a name across my chest  
I'm young and stupid, it's what they said  
And she said, she said,  
"You'll always be the boy I love but had to leave."  
Just leave, oh.

I'm breaking out again  
You got your lips on him with your back bent  
You look like Michigan  
But the city lights won't let you forget this

Whoa, whoa
