

Learn to Live

Architects

Picked yourself up,
Stop loving, start living,
Don't get held back,
That's where they want you to be.

I never paid much attention to them.

Every time they pushed us aside,
We got back up again,
Yeah we made it through the rain,
Just to live another day without them.

Pick yourself back up and learn to live,
Stop caring, stop thinking.
Picked yourself back up and learn to live,
The grass is greener on the other side, so don't give up on life.

Never back down, do this for yourself,
You don't need anyone to get you where you deserve.

I never paid much attention to them.

Every time they push us aside,
We jump back up again,
Yeah, we made it through the rain,
Just to live another day without them.

Every time they push us aside,
We jump back up again,
Yeah, we made it through the rain,
Just to live another day without them.

We are the ones you left out in the rain,
Come back tomorrow and we'll be here again.
We are the ones you left out in the rain,
Come back tomorrow and we'll be here again.

We are the ones you left out in the rain,
Come back tomorrow and we'll be here again.
We are the ones you left out in the rain,
Come back tomorrow and we'll be here again.

Here again...

We made it through the rain just to live another day,
We made it through the rain just to live another day,
We made it through the rain just to live another day,
We made it through the rain, the rain.
