

## Boom (4EVA)

### Architecture in Helsinki

This song you played me  
Was never meant to save me  
From all the ghosts inside my head  
I keep it open  
We walked the path you've chosen  
I might be broke, but I've got fire  
Boom

(make me better)  
Hold me forever  
(you make me better)  
You make me better  
You make me better

Boom  
(make me better)  
Hold me forever  
(you make me better)  
We tried to steal it  
I might deny I feel it  
You knock on wood a hundred times  
Lemme tell you know  
I get lonely pretty vacant  
I go nowhere dedicatin'  
That's what happens  
Till you come back home

I get lonely pretty vacant  
I go nowhere dedicatin'  
That's what happens  
Till you come back home  
Boom

(make me better)  
Hold me forever  
(you make me better)  
You make me better  
You make me better

Boom  
(make me better)  
Hold me forever  
(you make me better)  
You make me better

Boom  
(make me better)  
Hold me forever  
(you make me better)  
You make me better  
You make me better

Boom  
(make me better)  
Hold me forever  
(you make me better)  
You make me better  
How'd this get impossible  
Started out incredible  
Ohhh

Now you're just a friend of mine  
Lookin' for an alibi  
Ohhh  
How'd this get impossible  
Started out incredible  
Ohhh Ohhh  
Now you're just a friend of mine  
Lookin' for an alibi

Boom  
Me  
You make-make-make-make me  
Boom  
Me  
Me  
You make-make-make-make me  
You make-make-make-make me  
Boom  
(make me better)  
Hold me forever  
(you make me better)  
You make me better  
You make me better  
Boom  
(make me better)  
Hold me forever  
(you make me better)  
You make me better  
You make me better  
Boom  
(make me better)  
Hold me forever  
(you make me better)  
You make me better  
You make me better  
Boom  
(make me better)  
Hold me forever  
(you make me better)  
You make me better  
Boom
