

Escapee

Architecture in Helsinki

This escapee was never gonna stay
On an unfamiliar building on the rooftop where we lay
Where all the constellations shine to pave the way
Temptation's not a word until we've let it go astray
I won't delete it
He won't delete it
Whoa oh oh

Light bulbs hover over you all day
Oh darkness can be difficult like needles in the hay
I need to flip the switch and show you how to hide
And love is not the answer if you're taking me for a ride
For a ride

This escapee was never gonna stay
On an island way to typical to be stuck in a daze
And now the competition's overcome what may
Temptation's not a word until we've let it go astray
I won't delete it
He won't delete it
Whoa oh oh
I'm escapee
You're escapee

I'm escapee
You're taking me for a ride
For a ride
I'm escapee
You're escapee
