

## Bright Lights

Archive

Night songs along the air  
Sound waves fill the emptiness

Live for a day in the light  
Colour streams are filling my eyes  
Never mind such slight of decay  
In the flesh they only try to erase

Bright lights are filling me  
Bright lights are travelling deep  
Bright lights surrounding me

Shadows are leaving me now  
Unhinge the beautiful  
I wanna see how far we go out  
I wanna hold you dearly  
There's a breeze that's keeping me still  
There's a warmth that's keeping you here

Bright lights are killing me  
Bright lights are pulling me in  
Bright lights are flooding me

Bright lights are filling me  
Bright lights are travelling deep  
Bright lights surrounding me
