

# Headlights

Archive

They're telling me it won't be long  
The door is shut  
The suits are on  
Too bright to be day  
To hurt anyway  
Still there's no view  
No green, no blue

The headlights above  
They don't know love  
You smile to please  
I try to care

You break my heart  
You break my heart

I love you here  
I love you here
