

## Grey

Arco

when everyone agrees with you  
you know you're wrong  
when everyone embraces you  
you don't belong

nothing these days  
means what it says  
everything's gone grey

takes a life to live to learn  
where love comes from  
only takes three little words  
to know it's gone

nothing these days  
means what it says  
everything's gone grey

if you don't want to know the score  
then just turn away  
back to the world where papers burn  
and words decay

nothing these days  
means what it says  
everything's gone grey
