

## D Is for Dangerous

Arctic Monkeys

He knew what he wanted to say  
But he did not want to word it  
The dirty little Herbert  
Was thinking an escape  
But the place was well guarded

The guiltyness that started  
Soon as the other part had stopped

D is for Delightful  
And try and keep your trousers on  
I think you should know you're his favourite worst nightmare  
D is for...

Desperately trying to stimulate what it was that was alright  
3 quarters of an hour ago  
That had led him to be in a position  
And every compromission  
Another freak episode

He's nearing the brink but he thinks first  
The parallel universe perhaps could be the perfect scene  
He's nearing the brink but he thinks first  
The parallel universe perhaps could be the perfect scene  
He's nearing the brink but he thinks first  
The parallel universe perhaps could be the perfect scene  
He's nearing the brink but he thinks first  
The parallel  
I think you should know you're his favourite worst nightmare

D is for delightful  
and try and keep your trousers on  
you should know you're his favourite worst nightmare
