

# Heaven-Piercing Giga Drill

Area 11

I've been living underground; locked in the silence.  
Until you came and dug me up into a world full of violence.

Now we are spinning down anti-spirals.  
(Cut it, cut it out, cut it, cut it out)  
So many faces, so many trials.  
(Cut it, cut it out, cut it, cut it out)

They won't stop our evolution.  
Who do you think we are?  
Fight against your execution.  
Who do you think we are?  
(Whoa)

Trust me and we'll fly, not fall.  
Tip the balance to risk it all.  
Together we can go so far.

(Row row fight the power)

(Look up!)  
All the lights in the sky are stars.  
(Reach out with your fist)  
Let's demolish the tower.  
We are complete (our souls are fused)  
My drill will pierce through.

Go!

A twisting helix points to me,  
It follows everywhere I go.  
It carries the hope of humanity,  
And everything we know.

Smash your head into mine.  
(Cut it, cut it out, cut it, cut it out)  
Time stops as we combine.  
(Cut it, cut it out, cut it, cut it out)

They won't stop our evolution.  
Who do you think we are?  
Fight against your execution.  
Who do you think we are?

Trust me and we'll fly, not fall.  
Tip the balance to risk it all.  
Together we can go so far.

(Who the hell do you think we are?)

(Look up!)  
All the lights in the sky are stars.  
(Reach out with your fist)  
Let's demolish the tower.  
We are complete (our souls are fused)  
There's no defeat (this path we choose)  
We are complete (our souls are fused)

My drill will pierce through.

Believe in me (believe in the me)  
Who believes in you (who believes in you)  
Believe in me (believe in the me)  
Who believes in you

Believe in me, who believes in you.  
My drill will pierce through.
