Now I pass the point of no return there is no way back
Take the choice embrace this place don't harbour needs to look
back
This is me here... let it all go... Slung like a rock through t
he layers now
This is me here... Falling away... Got to let go of the past no
w!

There are symbols in the silence colours in the darkness
Now I know what i have always known but I was sightless
Look at it all... Trappings of life... Soon they will pass from
my memory
Am I so sure? Can I let go? Do I exist if I'm set free?

No blanket pictures - no custom cocktails
Let go the creatures - houses and hotels
Time to go and walk into the light
Time to go and walk into the light
No more possessions - leaving behind them
All those confessions - need not deny them
Time to go and walk into the light
Time to go and walk into the light

Now I pass the point of no return
Now I pass the point of no return

Naked and alone - Am I the only one?
Fading from the world - Is this where I begun?
Turn around and look - Resist the urge to run
Fading from the world - is this where I begun?

Naked and alone Am I the only one?
Fading from the world - is this where I begun?
Fall into a state - Of tranquil calm acceptance
Fading from the world is this where I begun?
