

That which cannot be saved  
Send into the arms of God  
Unflinching modern primitives invoke  
Mark (the) enemies of the faith  
Liquidate, sacrifice the evil ones  
In whom faith has died  
And all those who deny

Exhausted yet tireless, they lay in wait  
Serpents twisted around the sacred tree  
(Reciting poisoned words)  
Preface to a final solution  
Lead them all astray  
Lead them all to agony  
The specter of God becomes Death

And when faith has died  
New gods will arise  
To ascend a pestilent throne  
And embrace chaos and death

Incendiary  
Speak the words of enslavement  
Litany  
Speak of sin and perfect absolution  
Recite the parables of suffering  
Chant  
Intoxicate the foolish martyrs  
Iniquity  
The specter of God becomes death
