

# All of These Things

Aretha Franklin

(All of these things I want to be)  
(All of these things I want to be) Lord, I want to be  
(All of these things I want to be) To you

I wanna be sun that shines for you every morning  
Let me be the moon that shines for you every night, oh  
I wanna be there, baby, when the world puts you out  
Just lo let you know, baby, everything is alright

I wanna be, I wanna be the sun that shines for you every mornin  
g  
Honey, let me be the moon that shines for you every night  
Oh, I wanna be there, I wanna be there when the world gets you  
out  
Just lo let you know that every doggone thing's alright

(All of these things I want to be)  
(All of these things don't you know I want to be) Every little  
thing, I want you to let me be to you, baby  
(All of these things I want to be) To you

All of these things, all of these things, all of these things  
Oh, all of these things I want to be to you, baby  
All of these things, ooh, all of these things  
All of these things, oh, let me do it for you, baby  
All of these things, all of these things  
If I can't be all of these things to you, then just let me be a  
few  
Let me be some of these to you, baby, oh, oh, oh
