Can't You Just See Me

Aretha Franklin

Can't you just see me With my head in the air The day you trip and fall Right out of my hair I'm gonna walk right by you Like you were stone Everything that I felt for you, baby Will be dead and gone Hey, can't you just see me (Can't you just see her) Can't you just see me, girl (Can't you just see her) Can't you just see me now (Can't you just see her) With my head in the air (With her head in the air) Hey, can't you just see me With another man Just a-hugging and a-kissing And him holding my hand
