

Follow Your Heart

Aretha Franklin

Follow your heart where it leads you (where it leads you)
Give your love to the one, the one who needs you (the one who
needs you)
Darling, I'll understand and I'll step aside
I won't stand in your way if you're not satisfied (satisfied)

Follow, follow your heart, you know what's best for you (you k
now what's best for you)
And I love you much, too much, to try and stop you (too much t
o stop you)
But if you ever, ever, ever find that you are unhappy, yeah
Follow your heart back to me, yeah
Follow your heart back to me, yeah (follow your heart)
