

# God Will Take Care Of You

Aretha Franklin

Be not dismayed whatever betide you, you need to know  
(God will take care of you)  
Beneath His wings of love abide you, you need to know  
(God will take care of you)  
Through days of toil when heart does fail  
When dangers fierce your path assail, you better remember

(Chorus)  
God will take care of you,  
Through every day (through every day)  
All of the way  
God will take care of you; He will take care of you

All you may need (all you may need) He will provide,  
(God will take care of you)  
Nothing you ask, my friend, will be denied,  
(God will take care of you)

No matter what (no matter what)  
May be the test (may be the test)  
Lean, weary one (lean, weary one)  
Safe in his rest (safe in his rest)  
And you just remember that you know

(Chorus)

Through your trials and through your storms  
When it seems you can't hold on  
Trouble is on every side, cried so much you just can't cry no more  
They can talk about you, laugh about you, say that it's over  
But it's not over until God says it's over  
Remember that he is always faithful  
You serve a God who's able to take care of you

(Chorus 2x)
