

# Impossible

Aretha Franklin

If they had ever, if they had ever  
Ever, ever, ever told me

If they had ever, ever told me how sweet a kiss could be  
I would have said impossible, impossible, impossible for me  
And if they said, said that I'd find you beyond the rainbows en  
d  
I would have said it's impossible, impossible, my friend

To dream about what might have been is strange enough for me  
But now it seems that I'm living in a dream too beautiful to be  
And if they'd said that I, that I found you beside a stormy sea  
I would, I would have said it's impossible for now I see  
That nothing is impossible if you are here with me
