

Kind of Man

Aretha Franklin

You are tough with your hair held high, no one can deny
And you are proud, silence speaks out loud your confidence show
ing

One man with a flame within his hands, yourself you go
With much love to help you blind
This is your time, stand strong and go

You're the kind of man that every little boy looks up to and wa
nts to be

You always understand the flipside of the boy and naturally

Hey kid, I like to talk to you, and honey I do to, we've got so
much to say

Your universe all in your stock within with a smile should take
you a long way

What I call a real man, you shout to be 'cause you take the sta
nd

And then you give it, you give it everything that you got
Give more took yourself and respect your fellow man, oh

You are the kind of man that every little boy looks up to and w
ants to be

You always understand the flipside of the boy and honey natural
ly, naturally

You are the kind of man that every little boy looks up to and w
ants to be

You always understand the flipside of the boy and honey natural
ly, naturally
