

## Love Pang

Aretha Franklin

Oh baby  
I feel your perfect love  
Whenever my day begins  
While brushing my teeth  
Combing my hair  
I feel you deep within  
Ooohh I feel your touch, your touch  
While eating my morning meal  
While washing the dishes  
Making up the bed  
Last night was one of those things

I think I'm caught in a love pang  
Memories of last night  
Something moves all through my body baby  
Making every little thing all right

Got good loving, such good loving  
Memories of last night  
Something moves all through my body baby  
Making every little thing all right

I think I'm caught in a love pang  
Memories, memories of days gone by  
Something moves all through my body baby  
Making every little thing all right

I feel, I feel the sun  
While listening, listening to my favorite song  
While I'm going to my job  
Driving in my car  
I want you take your good loving

I think I'm caught in a love pang  
Memories of days gone by  
Something moves all through my body baby  
Making every little thing all right
