

# Somewhere

Aretha Franklin

There's a place for us  
Somewhere there is a place for us  
Peace and quiet and open air  
It waits for us somewhere

There is a time for us  
I know that there is a time for us  
Time together with just a little bit of time to spare  
Time to learn, oh, time to care

Somewhere  
We'll find a new, a new way of living  
We'll find a way of forgiving  
Somewhere

There is, there is a place for us  
I know, I know, I know, I know, I know  
There is a place for us

Hold my hand and we're halfway there  
Hold on to my hand and I'll, I'll take you there  
Someday, some, somewhere  
I'll take you somewhere
