

# Through the Storm

Aretha Franklin

In this world it's hard you know  
Lovers come and lovers go  
People never seem to hold on  
To what they've got, no, no

Some, they never stay together  
But you and I, well, we know better  
We can make it last forever  
We can keep this love alive

Through the storm, through the tears  
You and I, I know we can survive  
To the day, through the night  
If we try we can keep it alive, we can keep it alive

I know sometimes it's been so tough  
We've been so close to givin' up  
Hey, but our love's so strong  
Yeah, we keep holdin' on, yeah, to what we got

It's easier to walk away  
It takes a lot of love to stay  
We got all the love it takes  
We know there's a brighter day

Through the storm, through the tears  
You and I, I know we can survive  
To the day, through the night  
If we try we can keep it alive, we can keep it alive

We just got to be strong, we just got to be strong  
We just got to be strong together  
We just got to hold on, we just got to hold on  
We just got to hold on and go through the storm

Through the storm

Through the storm, through the tears  
You and I, I know we can survive  
To the day, through the night  
If we try we can keep it alive, we can keep it alive

Through the storm, through the tears  
You and I, I know we can survive  
To the day, through the night  
If we try we can keep it alive, we can keep it alive

Through the storm
