

Dreams

Argema

Morning tea is waiting but I hesitate
I remember what you told me yesterday
Your breath, your body are fresh memories
How could I spend a life without dreams

The time I spent with you was a happy time
Just you and me and a bottle of wine
All alone I'm sitting, smoke is getting free
Staying home and dream a little dream

Dream about a sandy beach and sea
Love around as far as we can see
We - the actors - you and me
Don't you see it's nothing more than dream

All the friends are gone, I see the empty chairs
Left me alone and this is not too fair
Morning tea is cold now as I can see
So I take more grass and fall into my dream

Dream about a sandy beach and sea
Love around as far as we can see
We - the actors - you and me
Don't you see it's nothing more than dream
