

Shine On Sunshine

Argent

She reminds me of the breath of summer sun
That breaks the cool daylight when morning has begun
So shine on sunshine, paint my life of grey
So shine on sunshine, warm my life always.

Better yet by far the best I ever saw
The rain that breaks your heart won't bend our love for sure
So shine on sunshine, spread your light my way
Shine on, shine on sunshine, weave your spell always.

Oh I get weary but she only has to smile
And all my fear is soon forgotten for a while
She melts the care away, I feel love shine someday
Surely I must be immersed in life's whole mystery.

Shine on sunshine, paint your life my way
Shine on, shine on sunshine, weave your spell life away.
