

## Rape Of A Slave

Arghoslent

Come forth you shameless dark cunt  
Appeal to my mercy for your life  
I command the helpless dame  
Bound and shackled in chains

In secluded regions  
Atop mountain heights  
The mystic starlight  
The impurity of the night

Hear the crowd chant her name  
Pelting the peon with stones  
Devoid of nurture and care  
Lusting the vengeance of her stare

Orbiting flames greet the dark  
The sounds of shackles commence  
The androcentric gem of life  
The fierce crack of the whip
