

# Big Ben

Ari Hest

Don't you get too close  
Make a mental note  
That something's gonna give  
If you wait this time out

A penny strikes the well  
And sinks down to the bottom  
With so much weight to bear  
It's a quick fix so don't you dare back down

Someone please explain  
How days so plain  
Became so fickle and dangerous  
Have gathered an unsettling dust  
Have beaten up the both of us  
Think Big Ben, Big Ben

Don't go down that easy

A knock at your front door  
You answer from the bed  
Nobody comes in  
Nobody goes out  
Mistakes you can't take back  
The unforgiven move  
If this can't be erased  
You're left wondering about what might have been

She wants to know the truth  
You want to hurt her less  
And one day this will pass  
And neither of you will even care
