

## Bird Never Flies

Ari Hest

How can I turn away from your gun?  
How can I stay here where others would run  
And cast the blame  
I fan a dying flame  
All of my secrets breathe life to my lies  
All of my thoughts like the ocean they slide  
Along the edge  
They linger on the banks  
In search of refuge

Darling, don't cry (I won't give you up)  
Don't you know why (I won't give you up)  
This bird never flies

There's night at the end of this heavenless day  
There's night at the end that will show me a way  
I tell myself  
We may still be saved
