

Fuel For The Fire

Ari Koivunen

I'm burning slow on a pale blue flame
I'm so cold, consumed and tame
My heart is weak like a flickering light
But I won't give in, I won't lose this fight tonight

I'm here all alone beneath the black sky
I depend on you, my flame will never die
The wind cries a whisper, calling out my name
Show me the way through the blizzard and rain

My blood flows strong now
I'm ready for the show
And now it's time to go

You're fuel for the fire
Pour it down on me
Make flames burn higher
I can feel the heat
You set my soul alive

A beacon in the dark, a guide along my way
Your shine keeps me from going astray
My pulse is rising and it's pounding in my head
Your light is strength where ever I tread

My blood flows strong now
I'm ready for the show
And now it's time to go

You're fuel for the fire
Pour it down on me
Make flames burn higher
I can feel the heat
You set my soul alive

Close your eyes
And take my hand
All you need is faith
Feed the fire
Soothe the pain
With you I will bear the strain

You're fuel for the fire
Pour it down on me
Make flames burn higher
I can feel the heat
You set my soul alive
