

# On The Top Of The World

Ari Koivunen

As your eyes catch the sun  
You know that your time has begun  
And your heart burns like fire  
You know you can't walk so you run

Running with the wind in your hair  
Running for your dreams 'cause you dare  
Running down the foot of the hill  
Yes you believe yeah you believe

kertosäe  
When you're feeling like this  
Yeah you know you can't miss  
You know you're on the top of the world  
When you're soaring high above  
High on everybody's love  
You know you're on the top of the world  
Yeah you know you're on the top of the world

Catch the tide coming in  
like that's why you came and you will  
Wave your hands in the air  
Let them know  
Feel your love everywhere  
Everywhere

kertosäe

Don't let them tell you, it can't be done  
Or? somebody is he gone  
Carry on, carry on

Running with the wind in your hair  
Yes you believe yeah you believe

Yeah yeah yeah

kertosäe  
The top of the world (2x)

When you're soaring high above  
High on everybody's love  
You know you're on the top of the world  
Yeah you know you're on the top of the world
