

# Raging Machine

Ari Koivunen

Calling in silence, deep in our souls  
Hunger grows more  
It lightens our way higher up to the goal

(We'll stand up and fight!)  
The vision is clear  
(We'll ride through the night!)  
Without any fear

Louder and faster with power we play  
This raging machine is blocking your way  
We're crushing you under and you will become  
The one who survives and never lets us down  
You'll stand on our ground

Hearts on the run, we are always alone  
Longing for home but never give up, we are here to be shown

we'll stand up and fight! The vision is clear  
we'll ride through the night! Without any fear

Louder and faster with power we play  
This raging machine is blocking your way  
We're crushing you under and you will become  
The one who survives and never lets us down  
You'll stand on our ground
