December

Ariana Grande

When December comes, I bet you want to Wrap me all up and take me home with you See what I look like under them lights We'll keep it quiet, whatever we do

I'm just trying to keep my baby warm through the wintertime I'm just trying to give you something to remember through the s ummertime And whatever is on your list, I'll do it Boy, whatever it is, you know I'll do it

Merry Christmas, here I am, boy Gonna love you, gonna give you all I can, boy Merry Christmas, here I am, boy I'm the present and you know it, here I am, boy Merry Christmas, here I am, boy Gonna love you, gonna give you all I can, boy Merry Christmas, here I am, boy I'm the present and you know it, boy

I'll give you the fire I keep inside Guide you all the way down, be a night light Give you the sweetest kiss that you'll taste Unwrap me now, been waiting since midnight

I'm just trying to keep my baby warm through the wintertime I'm just trying to give you something to remember through the s ummertime And whatever is on your list, I'll do it Boy, whatever it is, you know I'll do it

Merry Christmas, here I am, boy Gonna love you, gonna give you all I can, boy Merry Christmas, here I am, boy I'm the present and you know it, here I am, boy Merry Christmas, here I am, boy Gonna love you, gonna give you all I can, boy Merry Christmas, here I am, boy I'm the present and you know it, here I am, boy
