

Come On

Arid

Come on now love
I've been trying to reach you
With my heart in my hands
dumbfounded
I wanted to see you
Come on now love
how do you want it?
Got my mind all made up
You know you can't
always be like this.

I lie with you tonight
and I've waited so long
This love tearing me down
And I've been here so long
This love tearing me down
This time

Come on now love
So sweet I can taste it
Come on now love
I'm sure you got some time to waste yeah
Come on now love
I'm so close I can feel it
Give my your heart sweetheart
I know just how you want it yeah yeah

I lie with you tonight
and I've waited so long
This love tearing me down
And I've been here so long
This love tearing me down
This time

I lie with you tonight
and I've waited so long
This love tearing me down
And I've been here so long
This love tearing me down
This time
Come on now love
