Now I want someone badly Got a girl here tonight Want someone new

A little cry wants someone badly
I wanna know if this is a bad lease on me

I want to know
I want to know
Am I sure that I heard you right
I want to know
If you're leaving just do it tonight

Now I want someone badly Someone to burn in here with me A little cry wants someone badly Don't do anything just do it with me

I wanna know
I wanna know
Am I sure that I have your love
I want know
Cause if you're leaving just do it tonight

Now I want someone badly Could it be true That someone is you
