

# Little Things Of Venom

Arid

Out on the scene today  
Blasted in every way, got you  
Caught on the other side  
Some things you just can't hide,  
Feel the poison of change in me,  
All that I'll ever be,  
Comes back  
Crushing on into me  
Here it comes again.

Has it spotted you? Oh no.  
Have they got you too? Oh no.  
Has it spotted you? Oh no.  
Have they got you too? Oh no.

With every step it takes  
Something inside me breaks,  
Hang myself by a rope of words  
Whether or not it hurts, got to  
Save you from all of your  
Demons that had to score, every  
Trick that you've pulled before  
Here it comes again

Has it spotted you? Oh no.  
Have they got you too? Oh no.  
Has it spotted you? Oh no.  
Have they got you too? Oh no.

We're heading for a fall  
Set your mind at ease  
Won't you save us from  
These little things?  
One of my feelings took  
A ride today  
Into a black box and  
It came out grey

Has it spotted you? Oh no.  
Have they got you too? Oh no.  
Has it spotted you? Oh no.  
Have they got you too? Oh no.

We're heading for a fall  
Set your mind at ease  
Won't you save us from  
These little things?
