

Lost Stories (run Away With You)

Arid

You look at me and then you walk away
you say words only you can say
I want you
like I do

You step outside in the blistering rain
You tell me all I need to hear again
And I want you
like I do

Couldn't kill it if you tried
It's up to fate to decide
Nothing's ever lost
unless you want it to

I'll run away with you

You take me to the place that you know best
There's not much time we should be moving fast
If we want to
Make it through

You laugh at me, you're playing hard to get
You say trouble hasn't found us yet
And you want me
Like you do

Couldn't kill it if you tried
It's up to fate to decide
Nothing's ever lost
unless you want it to

I'll run away with you
I'll run away with you
