

Soiree

Arid

You can take me any place you want to take me
I can be your long lost soul.
You and me together we can be forever
No one ever needs to know.
Glowing on the outside,
Burning on the inside
I know what you really feel.
Time to set fire to your little heart now
You know all it wants is me.

I just want to hear you screaming out you love me
And this little game we play.
If you would just let me come a little closer
I'd fill up the empty space.
You can take me any place you want to take me
I can be your long lost soul.
You and me together we can be forever
No one ever needs to know.

You can take me any place you want to take me
I can be your long lost soul.
Tell me all about your little tiny secrets
Are there things I need to know?
We can walk around or sit here for a while
I know what you really feel.
You just want to go set fire to your heart
'Cos all it ever had was me.

I just want to hear you screaming out you love me
And this little game we play.
If you would just let me come a little closer
I'd fill up the empty space.
You can take me anywhere you want to take me
I can be your long lost soul.
You and me together we can be forever
No one ever needs to know.

Time takes care of all our sorrows,
Time heals all.
Do you love me?
Do you hate me?
Do you want this world to break me?
Terrify me straight down to my rotten bones.
Do you love me?
Do you hate me?
Do you want this world to break me?
Terrify me straight down to my rotten bones.

I just want to hear you screaming out you love me
And this little game we play.
If you'd only let me come a little closer
I'd fill up the empty space.

It's the time of the year, it's the time of the year
It's the time of the year, it's the time of the year
It's the time of the year, it's the time of the year
To be grateful for what you've got my dear.

Do you love me?
Do you hate me?
Do you want this world to break me?
Terrify me straight down to my rotten bones.

And I'll be, and I'll be, and I'll be
Whoever you'd want me
And I'll be, and I'll be
Your long lost soul, long lost soul, long lost soul.
Don't ever let me go, don't ever let me go.

I just want to hear you screaming out you love me
And this little game we play.
If you would just let me come a little closer
I'd fill up the empty space.

Baby, just maybe
Oh, baby, just maybe
Oh, we can find a little space
To make it all, to make it all come true.

Do you love me?
Do you hate me?
Do you want this world to break me?
Terrify me straight down to my rotten bones.
And I'll be yours.
