Life In L.a.

Life in L.A. Well, what can I say? It's a treasure to find So many ways to unwind You could be so lonely Life in L.A. is so lonely Is so lonely That way Life in L.A. Come on out if you're gay Make your babies and money Move in together Take out that loan Honey, it's now or never The weather is your boyfriend On a Saturday Stay in bed You can be so lonely Life in L.A. is so lonely Is so lonely That way My girl in my car But we're not getting too far Yes, I'm taking her home Halfway to Fresno at dawn Every peck on my cheek When I look at her face Every time we make plans I think lever and bass Life in L.A. Like a day in my brain And did you know you could be so lonely? Life in L.A. is so lonely Is so lonely that way

Take me home
