

Crybaby

Ariel Pink

We got a problem here
She's out of control
She wants something
She can't say the words out loud
Tell her a story or sing her a lullaby

My baby is cryin'
Tryin' to get her to stop cryin' so loud
Baby's cryin'
Cause I can't give her what she don't know
What she wants

Night after night no sleep
Ain't all so good for neither her nor me
Rocking her cradle pick her up and down
Doesn't seem to help it only serves to disturb her

Baby is cryin'
Tellin' the neighbors to get off my front door
Baby's cryin'
I'm too tired to keep trying to get her to get tired no more

What's left? [x3]
I've tried everything
What's left? I don't know!

We've got a problem here
She wants something she can't explain, I know
All I can do is state my desire
Tell her a story or sing her a lullaby

Baby is cryin'
Tryin' to get her to stop cryin' so loud
Baby's cryin'
Cause I can't give her what she don't know what she wants

Such a crybaby
Such a crybaby
