Feels Like Heaven

Ariel Pink

There I go again
Falling in love again
Knew better just like before but
Here I go

Cause that's when you came to me And you saved my life now I was just a boy When I knew you didn't need [?] But with you I swear it feels Just like heaven Feels like heaven

Been down that road before Every signpost that I ignore Gotta make it work out someway Here I go

I'll be your dreamboat lover and roll the dice We'll shine in paradise
Get to know the things you fantasize
With you I swear it feels
It feels like heaven
It feels like heaven

I'll be your dreamboat lover and roll the dice We'll shine in paradise
Get to know the things you fantasize
With you I swear it feels
It feels like heaven
It feels like heaven
