

# Flying Circles

Ariel Pink

Now tell me momma does this ever happen to you  
You thought of a question that you couldn't remember, no

And if the time passed you by  
Then the answer appeared and you didn't know it and it felt so good  
Then your [?] got suspicious of that meaning in the side  
Ooh, it's like [?]

Feel like I'm going somewhere sometime as a loop  
By design  
Feel like I'm running in circles and spirals swirling upwards

Ever get that funny feeling that you're not making sense  
Uhh  
You didn't cry but you laughed

And if the time passed you by  
Then you start to believe that you've never been born  
And that you died  
So you go wavin' at your mama with your rainbow in hell  
Ooh she's got your number there

I feel like I'm going somewhere sometime as a loop  
By design  
Feel like I'm running in circles and spirals swirling upwards

Doop, doo doo doo [x8]

I love it when that sad smile creeps on over my face, yay  
And tells me what I want to say, hey

And if the time passed me by  
The smile [?] disappear [?]  
[?]

You ever try to give your monkey's donkey a kiss  
Ooh, once you got down

Feel like I'm going somewhere sometime as a loop  
By design  
Feel like I'm running in circles and spirals swirling upwards

Feel like I'm going somewhere sometime as a loop  
By design  
Feel like I'm running in circles and spirals swirling upwards  
Swirling upwards and inside
