

# I Don't Need Enemies

Ariel Pink

I don't need enemies  
I ain't got the time  
Just come sit next to me  
And open my mind

I go where the music takes me  
I go out around  
Just look and you will find me  
High above the ground

I don't need enemies  
I ain't got the time  
Just come sit next to me  
And open my mind

Things I did yesterday  
I'd do them again  
I found ways to stretch my brain  
I'll share them with friends

Go where the music takes me  
I go out around  
Just look and you will find me  
High above the ground  
High above the ground

I don't need enemies  
Enemies [x4]

I don't need [x4]

Go where the music takes me  
I go out around  
Just look and you will find me  
High above the ground

I don't need enemies (NME)  
Ah ha ha [x19]

Or melody maker, for that matter
