

I Don't Need Enemies

Ariel Pink

I don't need enemies
I ain't got the time
Just come sit next to me
And open my mind

I go where the music takes me
I go out around
Just look and you will find me
High above the ground

I don't need enemies
I ain't got the time
Just come sit next to me
And open my mind

Things I did yesterday
I'd do them again
I found ways to stretch my brain
I'll share them with friends

Go where the music takes me
I go out around
Just look and you will find me
High above the ground
High above the ground

I don't need enemies
Enemies [x4]

I don't need [x4]

Go where the music takes me
I go out around
Just look and you will find me
High above the ground

I don't need enemies (NME)
Ah ha ha [x19]

Or melody maker, for that matter
