

The Ballad of Bobby Pyn

Ariel Pink

I hate, I hate... Open wide
Spent too much time looking for the right words
Here I come, open wide, yeah, I mess up your mind
Listen to me, bully, listen to me that

I know everything about hate, I know everything of hate, of hate
I don't know where to go, should you follow me, no, hate!

I know everything about hate, I know everything about hate
Love is love blind, no more debates

Here I come, open wide, I mess up your mind
Pull yourself, burn welt up at the king
Pull yourself, burn welt up at the king
Boy is the king but you can't come within, hey, h-hey

I know everything about hate, I know everything about hate
[?] on my lips, fingers, give me a kiss

Here I come, open wide, yeah, I mess up your mind

I know everything about hate, I know everything about hate
[?] on my lips, fingers, give me a kiss

I don't know where to go, should you follow me, no!
Spent too much time, looking for the right words, now give me a kiss!

Don't know, don't know about love, I just don't know about love
Just don't know about love, I just don't

Die, die, dying dead, they were led!

6:10, but now I recommend it

I know everything about hate, hate! I know everything about hate
I know everything about hate, hate! I just don't know about hate, just don't
know

Spent too much time looking

I know everything about hate, I know everything about hate
I know everything about hate, I know everything about hate
I know everything about hate, I know everything about hate
I know everything about hate, I know everything about hate
I know everything about hate, I know everything about hate, of hate, about i
