

Born Yesterday Part 1

Arkarna

I thought you knew it all,
Everything and more,
Why trival pursuit,
Just made me fell this small,
When tomorrow comes,
You'll be leaving me behind,
I don't learn from your mistakes,
So let me have my time,

Let the tables turn,
Together we will grow,
When they say,
I was born yesterday.

Wait let me do it wrong,
So you can watch me lose,
Don't point your finger,
Cause there's nothing left to do,

Oh you'll never hold me down,
I've got the whole world in my hands,
I'm alive you can't take that away
