

# A Little Rain (A Song for Pete)

Arkells

I was getting desperate  
Yes, I was  
Yes, I was  
A couple bad days had turned into months, into months

I stumbled in  
To St. Peter's Cathedral  
There I was  
I'd never tried religion, but man I'd try anything once  
You were smiling, wearing a t-shirt  
From a rally in 1992

When the rain starts coming down  
A little rain ain't bringing me down  
When the rain starts coming down  
A little rain ain't bringing me down

You said "Let's meet in the morning  
Get some sleep so you can clear your head"  
The morning sun had the sidewalk scorching  
So you knew the clouds would be rolling at 5:00 or 6:00, at 5:00 or 6:00pm  
Now at the diner I started crying  
Well Pete said, you got a friend in me

When the rain starts coming down  
A little rain ain't bringing me down  
When the rain starts coming down  
A little rain ain't bringing me down

Now the chapters of your life might take you by surprise  
And the last plot twist you never saw it coming  
Don't rush just take your time and know I'm by your side  
And when you're good, we'll hit the ground running  
Running, running

And when the rain starts coming down  
A little rain ain't bringing me-

When the rain starts coming down  
A little rain ain't bringing me down  
When the rain starts coming down  
A little rain ain't bringing me down

I'm hung up on everything that I'm not  
Pete said look around at everything that we got  
Yeah, yeah
