## I'll Be With You Tonight

**Arlo Guthrie** 

It's okay if you're all right It's good to be here with you tonight Dressed in moonlight and faded jeans It ain't no mystery, all it means is I can't believe I'll be with you tonight I can't believe I'll be with you tonight

We'll be all right if it's ok I know I'm crazy but I'm naturally that way And by the look in your liquid eyes It won't come as any big surprise but I can't believe I'll be with you tonight I can't believe I'll be with you tonight

Everybody's in their own little world And I've been dreaming about you girl I can't believe I'll be with you tonight

I'm here with you, you're here with me Ain't it wonderful just how good it can be I don't imagine it gets much better than this But whatever it was it just got crossed off my list I can't believe I'll be with you tonight Can't believe I'll be with you tonight

Everybody's in their own little world And I've been dreaming about you girl I can't believe I'll be with you tonight
