

# Standing at the Threshold

Arlo Guthrie

Standing at the threshold of a moment in my life  
Looking far into the ceaseless wonders of this day  
Calling from the mountain top  
"Come give to me your hand  
Touch me and we'll go along our way"

And bring about your love  
And sing about your love  
Think about your love  
Dancing, fly above the love of everyone

Waiting here while you have got to  
Prepare for the days  
Sleeping in the haze, come with me

Bring about your love, bring about your love  
Sing about your love, think about your love  
Dah dah dah dah dah, De dee dee dah dah  
Dah dah dah dah, Dee dee dah dum
