This Troubled Mind of Mine

Arlo Guthrie

There's gonna be some changin' 'round Babe, when you come turn me down Trifled on me for your last time When I come home at night Why you always start a fight

Now babe I want you to know You left your motor runnin' slow I got off and got on a faster line Got me a baby that's got some dough When you gotta go, you gotta go Gonna leave you and ease This troubled mind of mine

There's no need to talk to you
'Cause you know that we are through
I can find a better place to spend my time
Now if I stay out late
You know I'm swingin' on another gate
Gonna leave you and ease this
Troubled mind of mine

Now baby I want you to know You left your motor runnin' slow I got off and got on a faster line Got me a baby that's got some sense Gonna leave you to ease this Troubled mind of mine

[CHORUS]
