

## Demons

## Armagedda

I'm calling you to me  
Hear my words in your mind  
Hear me speak without tunes  
From the endless worlds of fire

I have found you  
I'm now the tormentor of your soul  
Wherever you may hide  
I will turn light for you to darkness

Ancient spirits  
Created by evil  
Follow my voice

I can see destruction from a different side now  
When the demons have drowned my mind  
You can't hide in the darkness  
If you don't belong to it
